ATILA Lectures

TRANSATLANTIC LECTURES ON INSURANCE LAW

The lecture series represents a transatlantic joint venture in which leading experts from Europe, North America, South America and Africa discuss fundamental questions of insurance law online (via Zoom). The lectures are primarily aimed at participants from Europe, North America, South America and Africa. With this in mind, the time of the event has been chosen to enable participation on both sides of the Atlantic. Speakers and participants from other regions are, of course, also very welcome to attend.

The lecture series encompasses key topics, each of which are dealt with in two lectures over the period of half a year. The focus for the first half of 2021 (Lectures 1 & 2) was COVID-19: CHALLENGES FOR (RE-)INSURANCE LAW - A TRANSNATIONAL PERSPECTIVE, the focus of the second half of 2021 (Lectures 3 & 4) was ARTIFICIAL INTELLIGENCE AND INSURANCE. In spring 2022 the lectures deal with AUTOMOBILE INSURANCE PROBLEMS AND POLICIES: A TRANSNATIONAL COMPARISON

We look forward to your participation!
